

PROGRAMME

DECEMBER 13th - 14th, 2019

II EDITION

www.pamplonanephrology.com

SESSION 1
(8:30 - 10:30)

TRASLATIONAL MEDICINE I

New paradigms in kidney disease diagnosis

What is "hereditary nephritis" in 2019? A Bomback
Liquid biopsy: blood and urine biomarkers for kidney diseases. A Ortiz
Noninvasive tools to monitor the transplanted kidney. P Cravedi

(10:30 - 11:15)

SPECIAL LECTURE

Diagnosis, management and treatment of membranous nephropathy an ever-changing concept. P. Ronco

SESSION 2
(11:30 - 13:30)

UPDATE IN CLINICAL NEPHROLOGY

Pathogenesis and treatments in glomerular diseases

Update in IgAN. E Gutierrez
Updates on FSGS . A Ortiz
Lupus Nephropathy , a pathological new point of view. E Morales

Board discussion on membranous nephropathy management and therapy.
P Ronco, A Bomback, P Cravedi, A Ortiz, E Morales

(13: 30 - 14:30)

LUNCH

(14:30 - 16:00)

CASES PRESENTATION

Clinical pathology session

Experts: Andrew Bomback - Ilaria Gandolfini - Eduardo Gutierrez
Nephrologists: TBA - O García Uriarte
Pathologists: Angel Panizo - Marta Abengozar

SESSION 3
(16:30 - 18:30)

TREATING THE KIDNEY TO CURE THE HEART

Cardiorenal Syndrome

State of the art. J Diez

New avenues of research

CV risk factors and CKD. Two-way relationship. M Gorostidi
Biomarkers of congestion: The value of carbohydrate antigen 125
in patients with renal dysfunction. J Nuñez

Board discussion: HD-Ultrafiltration to treat heart failure patients:
A Collins vs Peritoneal ultrafiltration E Sanchez

SESSION 4
(8:30 - 10:30)

TRASLATIONAL MEDICINE II

Complement in kidney disease

New roles of complement in glomerulosclerosis. P Cravedi
 Treating aHUS in the era of complement. E Morales
 Updates on ANCA vasculitis. A Bomback
 Blocking complement to treat antibody mediated rejection. I Gandolfini

SESSION 5
(10:45 - 12:30)

RENAL REPLACEMENT THERAPY

Challenges in hemodialysis

Cardiac loading and unloading challenges with conventional HD vs More frequent. A Collins

Board discussion:

On line HDF: F Maduell; Short daily HD: A Collins; Nocturnal dialysis. N Borman

(12:30 - 13:30)

LUNCH

SESSION 6
(13:30 - 15:00)

UPDATE IN RENAL THERAPY

New drugs in nephrology

Lipid management in patients with chronic kidney disease. E Sanchez
 New options for the management of hyperkalaemia in CKD: J Manrique
 SGLT-2 inhibitors and GLP-1 receptor agonists for nephroprotection and cardioprotection. MJ Soler

SESSION 7
(15:00 - 16:45)

DIABESITY (European group)

What's new in diabetes nephropathy?

Renal biopsies in diabetic patients: Diagnosis and markers of diabetic nephropathy progression. MJ Soler
 Post-transplant diabetes mellitus. E Porrini

Board discussion on new insight in diabetes.

E Porrini, E Morales, MJ Soler, N Garcia
